

Dove Drum Rental is a service that provides students, teachers, parents, professionals, recording studios and places of worship with quality percussion instruments. As a professional percussionist for 3 decades, I have collected instruments from all over the world. I am now opening up my collection for rental use.

My first goal is to provide the young percussionist with quality instruments in which to motivate him/her to practice and gain more knowledge. It has always been puzzling to me that in 5th grade music students get a new clarinet or trumpet and we (the drummers) get a practice pad (snare kit) and a bell set. What we really want is a DRUM SET and it's just what we need to discover the rock star in ourselves.

I would much rather practice and listen to Marimba than a bell set. Marimba has a warm, rich, mellow tone that is inviting, so you will enjoy practicing.

If you're a more serious and advanced player who is auditioning for All County or All State Band/Orchestra or even college auditions you may want to rent a set of Pedal Timpani or an Accessory Pack. The Pack consists of Zildjian Constantinople Crash Cymbals, Black Swamp Tambourine, Black Swamp Triangle with clip, Vic Firth Rolling Bass Drum Beaters and a carpeted trap table with stand.

If you're home on summer break from college and would like to maintain your Mallet and Timpani chops now you can.
